PROFESSIONAL SUMMARY

Product leader with 7 years across fintech, digital payments, lending, and banking, building API-first and LLM-powered products that streamline merchant payments onboarding, KYC/KYB/AML and credit-risk decisioning in regulated financial ecosystems.

SKILLS

Core: Digital Payments & Merchant Onboarding, Fintech (KYC / KYB / AML), Transaction & Risk Decisioning, Digital Lending & Underwriting, Mortgage Lending, Retail Banking, Product Strategy & Roadmap Ownership, API-first Product Architecture, Regulatory Compliance (BFSI), Experimentation / A/B Testing, Conversion-Funnel Optimization, Product Adoption, Stakeholder Management

Technical: SQL, Power BI, Google Analytics, REST APIs (Postman), Figma, LLaMA / LLM prompting, GenAI product design

EXPERIENCE

Senior Product Manager — Platform Owner (Android)

2025 – Present

Justdial

Bengaluru, India

India's largest local-discovery & commerce platform with an embedded merchant payments stack (JD Pay).

Platform owner for the flagship Android app, spanning merchant payments (JD Pay), onboarding, discovery, and trust & safety across the merchant lifecycle.

- **Owned merchant activation for JD Pay:** identified and resolved the key friction points in KYC and payment setup, increasing merchant activation by 22% and reducing onboarding abandonment by 35%.
- **Led migration from rule-based filtering to LLM-powered intent classification,** strengthening trust, safety and fraud-signal quality; reduced spam calls by 65% and materially improved lead quality.
- **Drove the 0→1 build of the GoJD platform,** expanding small-merchant onboarding and reach by simplifying the discovery-to-transaction journey.
- **Built an LLM-powered assistant ("Ask Anything")** to improve discovery and engagement, optimizing entry points and response quality to improve call-conversion on the platform.

Product Manager

2022 – 2025

Perfios Software Solutions

Bengaluru, India

Leading B2B fintech SaaS for BFSI - real-time financial data aggregation, KYC/KYB/AML and underwriting for banks, NBFCs and lenders globally.

Product owner for the API-first digital onboarding and AML/risk-decisioning suite serving enterprise BFSI clients, from data-source integration through go-live.

- **Launched Single-Click Onboarding, an API-first digital onboarding suite for enterprise BFSI clients,** reducing onboarding TAT from 1–2 days to hours (50–60% improvement) and lifting client activation and operational efficiency across regulated financial ecosystems.
- **Enhanced AML decisioning** by integrating new data sources and refining alert logic with analytics and engineering, improving signal-to-noise on risk alerts and contributing to 40% revenue growth over two quarters.
- **Drove org-wide enablement:** delivered a 400-person tech talk on BFSI regulatory shifts and product impact, and mentored new PMs and credit-risk (CRA) analysts, strengthening executive communication and cross-team delivery predictability.

Product Analyst

2020 – 2022

Better.com

Gurgaon, India

US digital-mortgage fintech - fully online home-loan origination.

Supported product and risk decisions across the online mortgage-origination and underwriting funnel.

- **Contributed to ~\$300M in loan volume** by improving underwriting workflows and resolving risk/compliance bottlenecks across the mortgage-origination funnel.

Assistant Manager

2019 – 2020

IDFC First Bank

Mumbai, India

Private-sector Indian retail bank - consumer lending and cross-sell distribution.

Managed retail cross-sell and DSA-led distribution for the Mumbai (West) market.

- **Scaled the retail cross-sell portfolio in Mumbai (West)** through data-driven analysis and channel enablement, driving 2× sales and \$111K–\$167K in monthly business while managing DSA-led distribution economics.

EDUCATION

Post Graduate Diploma in Management (PGDM) : *Institute of Management Technology (IMT), Nagpur*

2017 – 2019

Bachelor of Commerce (Accounting) : *SNDT University*

2013 – 2016
